

# **ECCE position paper on infrastructure and water management - Notes for discussion**

65<sup>th</sup> ECCE general meeting  
2-3 June 2017, Antalya, Turkey

# ECCE position paper on infrastructure and water management

1. Draft final version. [ECCE water PP draftfinal.docx](#)
2. The document covers a **multidimensional subject** that could be presented in various/separate position papers.
  - Water governance (..2)
  - Asset Management
  - Sustainable Management of water (...7)
  - Climate change (...1)
  - Water scarcity and droughts (... 1)
  - Flooding (... 1)
  - Alternative sources (... 1)
3. Need to discuss approach, presentation and further steps. ⇒ **Meeting with exbo:**
4. Before we finalize the document, first collect comments of ECCE members, preferably from people who deal with water management. The comments (preferred) to be written with track changes. **A list of contributors to circulate comments. Comments cc exbo**
5. Important to have contribution from ALL COUNTRIES, **EU - non EU**, so to cover all approaches from Europe if possible. Experience shows that there are some differences in the challenges countries face. **All ECCE members invited.**
6. **One Month** time for responses of members regarding their comments about the document.

## ECCE position paper on infrastructure and water management
